Kevin,
I will be in Denver tomorrow. When would be a good time to come pick things up?

Thanks

Robert J. Hammer

I understand that the FOIA is being mailed out today. I could mail your materials out today along with it, or you could have someone come over and pick it up late tomorrow or on Thursday.

AM

Kevin,

Was the North Dakota Class I area modeling data released yet? I can send someone over from my Denver office to obtain this information if that is possible. Let me know what the status of the release is and whether I can pick up the information from your EPA office there in Denver.
